

## DecoSpec LumiSwirl Metallic Pigment Decorative Coating System

### System Description:

A polymer-based decorative system consisting of a pigmented high-build epoxy primer, followed by a high-clarity epoxy basecoat impregnated with metallic pigment(s). An optional 2<sup>nd</sup> “accent” can be applied prior to top coating with a high-performance UV-blocking urethane. This system produces a truly unique, three-dimensional, decorative finish. Ideal for showrooms, cafeterias, restrooms or any area where a unique look is desired.

### System Advantages:

- Virtually endless artistic options
- Very low-odor
- Excellent chemical-resistance
- Enhanced aesthetics
- Seamless and easy to maintain

### System Installation Overview:

1. Apply Protect 1000 HB pigmented primer and allow to cure
2. Apply Protect 1000 HC with LumiSwirl Metallic Pigment, allow to cure
3. Protect 1000 HC with LumiSwirl Metallic Accent, allow to cure (Optional)
4. Apply Protect 2100 UV topcoat and allow to cure

All DecoSpec floor coating systems can be enhanced with PIP's proprietary Gloss-Grip Technology. This additive greatly enhances both the safety and wear characteristics of your floor coating system while retaining a slip-resistant, yet high-gloss, finish that is easy to clean and maintain. These systems not only exhibit longer service lives; they help you save money by reducing maintenance costs.
