

HangarSpec™ NCR Chemical-Resistant Novalac Coating System

System Description:

A high-build, chemical-resistant coating system utilizing a chemical-resistant epoxy primer and subsequent novalac topcoat(s). This system produces a highly chemical-resistant surface that is ideal for floor areas exposed to aggressive aviation chemicals or stripping operations.

System Advantages:

- Resistant to stripping chemicals
- Very low-odor
- Excellent solvent and chemical-resistance
- Resist damage from stands
- Ideal for strip and paint hangars

System Installation Overview:

1. Apply Protect 1000 CR primer and allow to cure
2. Apply Protect 1750 Novalac and allow to cure
3. Optional 2nd Application Protect 1750 Novalac. Allow to cure

All HangarSpec floor coating systems can be enhanced with PIP's proprietary Gloss-Grip Technology. This additive greatly enhances both the safety and wear characteristics of your floor coating system while retaining a slip-resistant, yet high-gloss, finish that is easy to clean and maintain. These systems not only exhibit longer service lives; they help you save money by reducing maintenance costs.
